ADVISORY TO THE PUBLIC

6-hour Outage and Lane Closure Needed to Support Transmission Line Repairs

(Fadian, Mangilao) - Guam Power Authority advises the public that in order to allow for our Snohomish PUD Washington crew to make repairs on lines 1 and 2 of the Cabras to Hagatna Substation 115kV Transmission line, *certain distribution feeder lines need to be secured*. This line which feeds power to customers in Hagåtña, Ordot-Chalan Pago and Sinajana will be interrupted from **10 a.m. to 4 p.m., Monday, July 3, 2023.** The transmission lines vital to the stabilization of the IWPS, sustained widespread damage from Typhoon Mawar. As island power is restored to the community, the repairs to the transmission lines become increasingly critical. Restoring lines 1 and 2 of the Cabras to Hagatna Substation 115kV transmission line is a priority in order to bring reliability back to pre-storm conditions. Transmission line restoration and redundancies are critical to a successful post typhoon recovery.

The schedule below represents the general areas affected and is subject to change based on how quickly the repairs are made and lines restored.

Affected Areas Include:

Hagåtña/Ordot-Chalan Pago/Sinajana

- Along Route 4 from Agana Springs, Hagåtña swamp, Lucio St., Duenas St., and surrounding areas.
- Along Route 4 from MJ Market (former Gogue's Mart) to Hagatna McDonald's and surrounding areas.
- Along Route 4 Sinajana Mobil including Sinajana village, Gibson Court, Pale Kieran Drive, Chalan Kanton Tutujan, Etton Lane, Papato Lane, Avenida Herman de Leon, Chalan Guma Yu'us, Ghura AMP 1 and surrounding areas.

As repairs are being made on lines 1 and 2 of the Cabras to Hagatna Substation 115kV transmission line, **crews will need to close off one or more lanes in the affected areas; motorists should expect traffic delays as work is being performed in these areas**. The lane closures are necessary in order to ensure the safety of the line crew and other personnel assisting in restoration. The lane closures will be from 10 am to 4 pm.

Our priority is to restore energy back into your homes and businesses; and restore the island-wide power system online at full capacity. GPA linemen and support crews are working night and day for you, your families, and your businesses. Si Yu'os Ma'åse' for your patience and support.

We apologize for any inconvenience this may cause the public, but repairs are necessary for a successful recovery.
