GPA Credits Third $100 Energy Credit To Customers' Accounts

GPA customers received three $100 credits in three weeks
June 2024 credit is now reflected in active GPA accounts

(Fadian, Guam) – The Guam Power Authority (GPA) confirmed that the third $100 increment of the Prugråman Ayuda Para I Taotao-ta Energy Credit program was credited to all active GPA customer accounts yesterday, just three weeks after the latest six-month extension was signed into law (Public Law 37-104) on June 5, 2024.

The first $100 credit for the April billing was applied on June 13, 2024 with the second credit for the May billing posting on June 21, 2024. The third increment posted on June 27, 2024 satisfies the June 2024 billing cycle, and customers will see the credit listed in their online accounts immediately and on their next bill.

"Within three weeks of the energy credit extension becoming law, Governor Lou Leon Guerrero and Lt. Governor Joshua Tenorio, the 37th Guam Legislature, and the Department of Administration worked swiftly to make $300 in direct aid available for GPA customers which covers the April to June 2024 billing period. GPA thanks our islands leaders for their continued support to assist our customers." said GPA General Manager John M. Benavente, P.E.

He added, "This is significant savings for our customers in a short period, and we are grateful for how the funding was expedited. GPA customers should expect to see $100 credits in their accounts each month for the next three months for July to September 2024 billings."

About Prugråman Ayuda Para I Taotao-ta Energy Credit

The new Prugråman Ayuda Para I Taotao-ta Energy Credit law extended the program for another six months for $600 in direct aid for active GPA residential and commercial customers. The credits will be made in $100 increments for the April through September 2024 billings and will account for an additional $31.6 million in direct assistance. This is the fifth extension of the Prugråman Ayuda Para I Taotao-ta Energy Credits. GPA will continue to announce when the energy credits are applied to customers' accounts.
