GPA is proud to invite you to a Cyber Security Conference which includes speakers from the Department of Energy, FBI, Homeland Security and the US Coast Guard (October 19, 2023). In addition, there will be panel discussions to discuss current issues affecting Cyber Security on Guam. This event is geared towards persons who are involved in the Cyber Security protection of their business.

By invitation only on Day 2 (October 20, 2023), we will have a Department of Energy (DOE) CyberStrike training exercise geared toward IT/OT environments and critical infrastructure. This training will feature live exercises using real equipment and scenarios routinely experienced by utility owners and operator of both IT and OT environments
