POTENTIAL 1-HOUR ROTATING OUTAGES THIS WEEKEND

Cabras 2 Emergency Repairs Underway. Yigo CT Remains Offline.

(Fadian, Guam) – The Guam Power Authority advises customers of possible 1-hour rotating outages this weekend beginning at 5:00 p.m. today through 12:00 a.m. Monday, August 21, 2023 due to limited generation capacity.

Baseload unit Cabras 2 is offline for emergency repairs. Yigo CT continues to be offline for extensive repairs due to damage sustained from Typhoon Mawar.

To maintain grid stability when customer energy demand exceeds total energy capacity, GPA will, as a last resort, implement rotating outages lasting up to 1-hour. Power will be reconnected to all affected customers at the top of each hour.

The attached schedule is issued as a precautionary notice to allow customers to plan accordingly should outages be necessary while these critical generation units are under repair. This notice is provided but does not mean a power interruption will occur.

Customers are encouraged to conserve power from 5:00 p.m. to 10:00 p.m. Refraining from using air conditioning units and turning off electric water heaters during the peak demand hours can significantly assist in reducing energy demand and required load shedding.

We thank you for your continued patience and urge the community to follow our social media pages and website for the latest outage information.

###

The schedule below represents a list of potentially affected areas. This schedule is subject to change based on generation capacity and power demand.

AUGUST 18, 2023 - AUGUST 20, 2023
5:00 p.m. – 6:00 p.m.
