## **ADVISORY TO THE PUBLIC**

### *GPA Operating UAS/UAV for Infrastructure and System Improvements*

(Fadian, Mangilao) – Guam Power Authority advises the public they will be operating unmanned aerial system (UAS) or unmanned aerial vehicle (UAV), drones in the villages of Hagåtña and Mongmong-Toto-Maite on Friday, January 31, 2025 from 8:00 a.m. to 4:00 p.m.

Crews will be conducting aerial operations to capture imagery of monotubes around the Agana Substation, Mongmong-Toto-Maite area. The visual inspection images are used internally by GPA Engineers or line crews for planning, maintenance or other projects.

Please note that the concept of operations plan is subject to change and operating a drone is highly dependent on weather conditions.

GPA also makes every effort to mitigate risk for its UAS/UAV operations that include not flying closer than 30 meters from individuals. However, if residents have any concerns they can contact GPA Emergency Dispatch at (671) 475-1472/3/4 or GPA Communications office at (671) 648-3145.
