GPA Confirms Upload of First $100 In Energy Credits

All active GPA accounts now reflect the April 2024 credit

(Fadian, Guam) – The Guam Power Authority (GPA) confirmed that the first increment of funding under the Prugråman Ayuda Para I Taotao-ta Energy Credit program was received and credited to all qualified residential and commercial accounts yesterday as part of the six rounds of energy credits signed into law (Public Law 37-104) on June 5, 2024. The first increment satisfies the April 2024 billing cycle. GPA ratepayers will see the credit listed in their online accounts immediately and on their next billing statement.

GPA General Manager John M. Benavente, P.E. said, "GPA thanks our island's leaders and the Department of Administration for ensuring that the funds were swiftly disbursed so GPA ratepayers can receive the immediate savings especially as we head into the summer season. We will continue to work with our partners at DOA to upload the $100 energy credits as soon as they become available."

The new law extended the energy credit program for another six months for a total of $600 in direct aid for active GPA residential and commercial customers. The credits will be made in $100 increments for the April through September 2024 billings and will account for an additional $31.6 million in direct assistance. This is the sixth extension of the Prugråman Ayuda Para I Taotao-ta Energy Credits.

GPA will continue to announce when each of the energy credits are uploaded to customers' accounts.

Financial Assistance Programs Available to Customers

GPA notes that there are programs available from the Department of Administration and the Guam Energy Office for customers in need of assistance. DOA's Emergency Rental Assistance (ERA) Program Cycle 6 remains open for new and continuing applicants. Additionally, the Guam Energy Office offers assistance such as the Weatherization Program and the recently launched Low Income Home Energy Assistance Program (LIHEAP). Customers should inquire or apply directly with the agency or organization.

GPA Provides Energy Saving Tips for Summer Months Ahead

As the island moves toward the summer months, GPA continues to share energy-saving tips for how to navigate the warmer temperatures ahead. Customers can learn how they can conserve energy and Beat the Peak between the high-demand hours of 5:00 p.m. and 11:00 p.m. and save money on their power bills.
