GPA Confirms March 2024 Energy Credit Applied Today

The last of three $100 energy credits under the extended Prugråman Ayuda Para I Taotao-ta program was applied to all active GPA accounts

(Fadian, Guam) – The Guam Power Authority (GPA) announced that all active GPA accounts have been credited with $100 as part of the extended Prugråman Ayuda Para I Taotao-ta Energy Credit program. The March 2024 credit represents the third and last $100 energy credit in the current round of aid. Customers are invited to log in to their GPA accounts to view their adjusted balances after the March 2024 credit was applied.

GPA General Manager John M. Benavente, P.E. said, “Each month, our team has worked with the Department of Administration to expedite the transfer and upload of the $100 energy credits because our customers are counting on this direct assistance. It is important to note that this upload is the final credit in this round of assistance. We thank the Government of Guam for their support of this program that has directly benefitted our residents and businesses.”

The fifth extension of Prugråman Ayuda Para I Taotao-ta Energy Credits was made possible under Public Law 37-66. All active residential and commercial customers received $300 in aid from January through March 2024, through monthly $100 credits applied directly to their GPA accounts.

Customers who need additional assistance with their power bills are encouraged to contact DOA to see if they qualify for the Emergency Rental Assistance Program and the Guam Energy Office for the Weatherization Program.

GPA Encourages Customers to Prepare for Summer Months

As the island moves toward the summer months, GPA is reminding residents to prepare for warmer temperatures and learn how they can conserve energy and Beat the Peak between the high-demand hours of 5:00 p.m. and 11:00 p.m. GPA provides tips for how customers can reduce their power bills further by managing their energy consumption and implementing energy saving tips. For more information, visit GPA’s customer service website (guampowerauthority.com), newsletters, and Facebook and Instagram pages (@guampowerauthority). GPA invites residents and businesses to learn more about how they can Beat the Peak and reduce their energy consumption.
